

# MIXMATE<sup>®</sup>

Chemical mixing streamlined.

**Boost Productivity!**  
**Make Spraying Fun!**

[agspray.com](http://agspray.com)

## Mixmate Features:

- Automated Recordkeeping Saves Time in the Field and the Office
- Mixmate is Cloud Connected for Data Backup and Office Access
- Factory Calibrated Scales and Flowmeters Rated at +/- 0.5% Error
- Modular System Components Easily Expanded with CAN Bus Connections
- Spray Tender Trailer and Stationary Installations
- Combine Weight and Flow Measurement Options for Speed and Versatility
- Customers Report Loading in One Fourth to One Half the Time

## Mixmate Pro Inductor

- All Stainless Design
- Enclosed Hopper, Electric Pump Control Built-in

## Mixmate Fusion Inductor

- Best Mixmate Features, Compact, and Economical
- 3 Optional Bulk Inputs Measured by Flowmeter

## Both Mixmate Inductors Feature:

- Inductor Measurements by Weight
- Drain, Weigh, Record, and Rinse from a Jug ~12 Seconds
- High Flow Rate Rinsing System for Dry Products

## Mixmate Flow - Single and Stack

- Compare the Mixmate Flow Stack with other systems and you will find we have advantages of speed, automated mixing, automated records, and often the price.
- Excellent companion product for the Handler, ChemBlade, or an Inductor
- Automated Mixing and Recordkeeping for Bulk Products
- Compact Footprint to Save Trailer Space
- Example system in the picture: Automatic measurement and control of 8 bulks and water with up to 4 bulks measured simultaneously for speed.

Actual customer setup featuring:  
14 bulk input Super Stack and a  
Mixmate Pro

## How Mixmate compares to other systems and other interesting facts:

- Compare the Mixmate Flow to other systems. The Mixmate Inductors add features beyond any other system at any price.
- The Mixmate inductors are the only systems capable of measuring directly from jugs with automated records and fast processing.
- The flowmeters or scales do not need to be calibrated.
- The Mixmate Flow Stack takes only 2.2 square feet of floor space.
- Each Mixmate System is optimized for speed, accuracy, and price.
- An automated mixing system boosts sprayer productivity.
- Existing plants can be modernized with Mixmate's control systems to give new capabilities and speed.
- A Mixmate system can easily be expanded at any time as needed so you are not locked into a fixed configuration.
- Closed system for bulk products limits worker exposure.
- Cloud connected for access from the office and data backup.

*"Two things, it's exact. No system I've seen can come even close to the same level of accuracy. Which leads to second point, it's stress free. Fully automatic calculations and mixing make loading the sprayer a dream. Push a button and it's done. I'll never mix manually again, ever!"*

*Jason Kieser, Farmer and Tech Advisor*
